

Legal Consultation

Part of your Employee Assistance Program.

Legal concerns and issues may cause stress, confusion, and uncertainties. Whether it's a question about divorce, domestic violence, real estate, writing a will, estate planning, handling a legal dispute, immigration or bankruptcy, we're here to help.

Legal Consultation

We can connect you with a qualified legal professional for free telephonic consultations to help you work through your questions and concerns. The legal professional can offer information on a wide variety of legal matters and demystify any legal processes or queries; however, they are not able to offer legal advice. A one-off legal consultation appointment is included in your Employee Assistance Program.
